

“THE PERFECT CARRIAGE”

In the perfect carriage strength is never sacrificed to beauty nor beauty to strength. These points are of equal importance, and to combine them is the greatest test of skill that faces the carriage builder. By this test have the Studebakers won renown. Their vehicles are models of correctness and beauty, and possess a strength that is an infallible guardian of safety. Studebaker harness and accessories are notable for the same excellence in every detail that marks the carriages.
