

MARMON 34

The Choice of France

In the hour of peril when the French motor car factories were engaged in war work, France, the birthplace of the modern motor car, turned to America for help to supply her great army staff with means of reliable transportation. France knew what she wanted — reliability, endurance, speed and ease of riding.

We consider it the highest endorsement that in this crucial time the French governmental motor experts chose the Marmon 34 as the American product suited to their needs.

Every Marmon owner may well consider this a tribute to his judgment.
