THOSE familiar with Nash policies are at no loss to explain the marked success of The Nash Motors Company and the Nash Six.

The high standards which guide the manufacturing, selling and servicing of the Nash Six, are sufficiently above the average, it seems, to have attracted a very considerable amount of interest and appreciation.

*Every Nash model, open and closed, has the Nash perfected valve-in-head motor, powerful, economical and quiet, and is distinguished by rare beauty of design, finish and appointment*
