HUNDREDS of little things . . .  
unseen details of finer, prouder  
work . . . merge in the quality of  
Templar.

Each seldom calls attention to itself . . .  
the Templar owner rarely knows each  
separate factor of his car's entire fine-  
ness.

But he does know that by every token of  
appearance and performance, he drives  
America's super-fine small car.
