

Taking America Off Its Feet

IT IS sheer merit that has won the nation to Willys-Overland cars! New features! New beauties! New values! Here is a striking example:

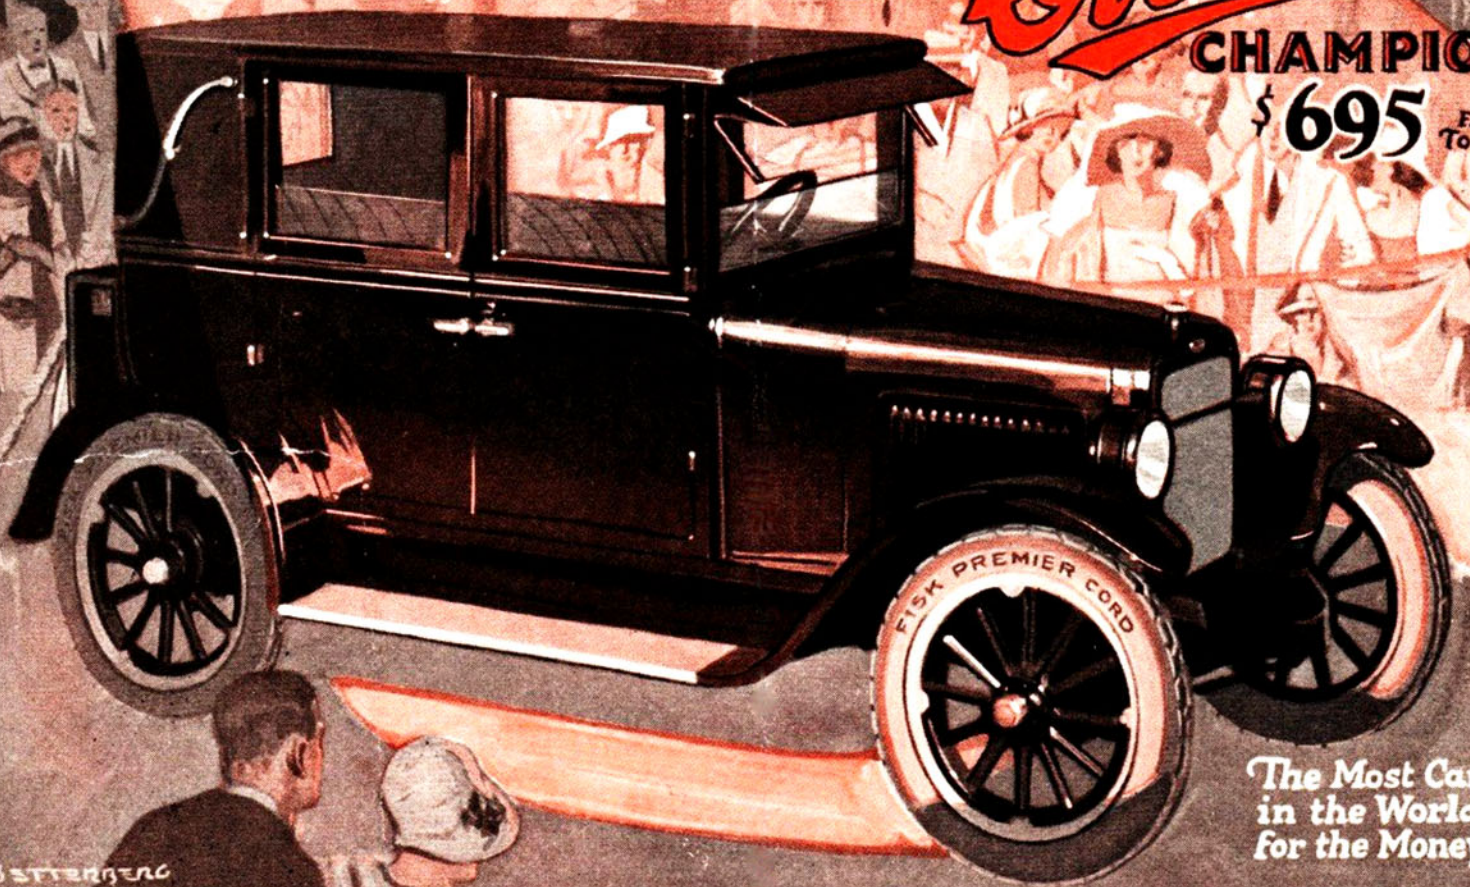

The new Overland Champion! Nothing comparable in usefulness was ever seen before! Both seats adjustable forward and backward for short or tall people. Big loading space by removing rear seat and upholstery for sample cases, luggage, tools, groceries—anything a salesman, farmer, housewife or anyone else wants to carry. Both seats and upholstery make into full-sized bed in car—wonderful for camping. Commodious trunk at small extra price. Extreme economy! Overland reliability! Try to find its equal at or near the price!

See this car—all the Willys-Overland cars—at the Shows—at your dealer's—but see them!
