The Business of Farming

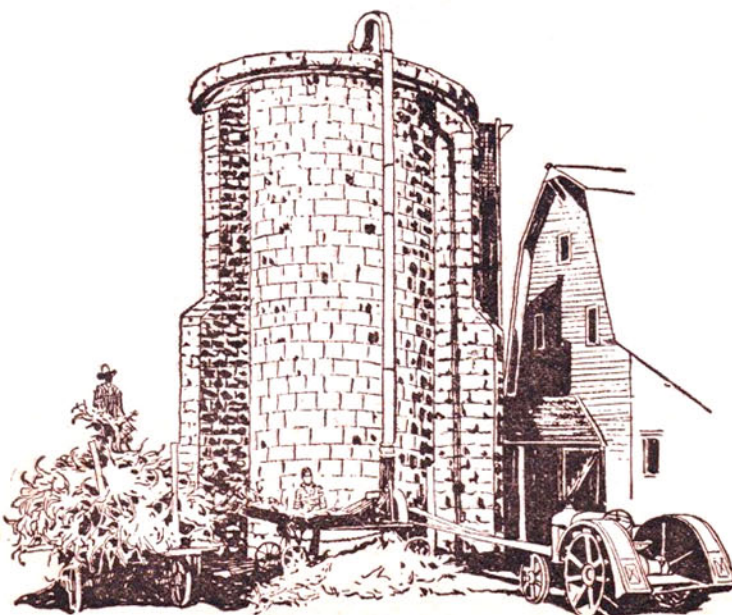

WITH FORD TRUCKS means low cost distribution, permitting the delivery of live stock to the yards without noticeable shrinkage, and grain to the elevator the day prices are best, while the best market, though distant, can be selected for the sale of other produce.

WITH FORDSON TRACTORS means low production costs, greater production per acre and insures the work being done at just the right time.

Several new Ford-built body types are now available which will make the Ford truck exactly fit all farm hauling needs.
