

A Great Achievement by a Famous Group

IN the new 1926 *advance-engineered* six, Moon, affiliated with a notable group of America's foremost automotive specialists, has produced a distinctly different, a definitely better type of construction.

Bodies have that right and undefinable touch of smartness that immediately ranks Moon among the leaders, everywhere, regardless of price. Motor and chassis are design-

ed to meet the extremes of modern traffic conditions.

Their high performance is marked by an ease of operation, a freedom from fatigue that you can appreciate only by personal experience.

Treat yourself to a new hour of ease in this new 1926 five-passenger roadster. Find out for yourself why Moon owners all over America are broadcasting a new story of motor car satisfaction.
