

# PONTIAC SIX

**\$825**

COACH OR COUPE

Never in automotive history has any new make of car—regardless of size, price or present popularity—enjoyed such an enthusiastic reception as the Pontiac Six . . . Never before has any such car won buyers at a rate that called for a production of over 30,000 in the first six months . . . Week by week the enthusiasm grows—and here are the reasons . . . Never before could you buy for \$825 a closed car with a spacious,

brightly colored, Duco-finished body by Fisher and a six-cylinder engine of 186.5 cu. in. piston displacement . . . Never before did that small investment give more definite assurance of long life, dependability and the full advantages of six-cylinder performance—because never before did an organization of equal skill, experience, facilities and vision devote itself to the manufacture of a six-cylinder car so high in quality, yet so low in price.

*Oakland Six, companion to the Pontiac Six, \$1025 to \$1295. All prices at factory. Easy to pay on the General Motors Time Payment Plan.*
