

Smooth as the Flight of an Arrow

A REVELATION awaits you in your first ride in the New and Finer Pontiac Six—a revelation of comfort, of smoothness, of power, of flexibility that you never dreamed attainable in any car of comparable price. And the reason is evident. In the New and Finer Pontiac Six General Motors turned their vast resources, their stores of knowledge and skill, the facilities of their matchless laboratories and proving grounds, their great advantages of purchasing and production, all to the task of providing a type of high-quality, six cylinder automobile such as had never before been available at anywhere near so low a price.

The result is a car of long, low, graceful lines, of exquisite design and coloring, of the latest body styles, of the utmost completeness—a car as smooth in performance as an arrow's flight, quick as a flash to respond to your demands . . . and a car that brings quality six performance to the widest circle of car-buyers.
