

"The supreme combination of all that is fine in motor cars"

*Color*, Nature abounds in beautiful and harmonious color combinations. The birds, the flowers, the sunset skies, set perfect examples—and point the way to brilliant color schemes all in perfect taste.

Yet what artistry is required in the selection of shades and tones to satisfy the modern vogue for color in motor cars! Packard has a special Board of Color made up of men of long experience and artistic judgment. These men create the standard color combinations which charm the eye in such wide variety on today's Packard Six. And they advise on the special re-

quirements of those who buy the Packard Eight.

Whether Six or Eight is your choice you may be as sure of the charm and good taste of the Packard's color scheme as you are of its lasting beauty. For Packard lavishes as much care and effort on the unusual processes which preserve the car's color and finish as upon the selection of the shades which will appeal to Packard's discriminating clientele.

Nothing finer is offered anywhere in the world than the enduring brilliance of Packard cars—long in life and long in beauty of lines and finish.
