Oakland Six, companion car, supplied in six body types by Fisher. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

In addition to the power and smooth performance of its famous "Proving Ground" engine—

—in addition to the endurance and reliability that result from scientific design and sturdy construction—

—the New and Finer Pontiac Six offers that one great element *everyone* wants in a motor car—the element of style—of smartness, distinction and beauty.

Pontiac Six is the lowest priced six with bodies by Fisher. And never was the craftsmanship of Fisher designers

more ably revealed than in the new and roomier bodies created for the New and Finer Pontiac Six.

In their fashionable lines, harmonious proportions and balance, and modish color effects in Duco, they make the Pontiac Six supreme in style among all low-priced sixes.

And their extra length adds an extra measure of comfort and riding ease to those qualities of stamina, snap and speed which have been so important in making the Pontiac Six the most popular car of its type ever introduced.
