

Worthy of the splendid colors that glorify the Canyon's cliffs

IN this Cadillac Convertible Coupe, finished in varied shades of Afterglow Brown and Buttress Brown and boldly striped with Orange, the artist has caught the prevailing spirit of Grand Canyon coloration. Wheels, brake drums, and the beadings upon fenders and splash plates are in Bright Angel Blue. Hardware is bright nickel with rich Orange inlay. This jaunty model interprets the popular convertible type in most energetic and alluring terms; and for it, Wiese has woven a special upholstery fabric of waterproof whipcord.
