

Discover the *Difference* for Yourself and what a Difference you'll find!

The Cabriolet • Body by Fisher

The Natural Bridge of Utah, one of the most unique subjects of natural architecture in all America.

Possibly you don't realize what a difference exists in automobiles. How vastly superior some cars are proving themselves to be. How much more you can get for your money. In performance . . . in stamina . . . in style.

★ ★ ★

Take the All-American Six for example. Big . . . beautiful . . . luxuriously fitted throughout. Swank as a sophomore in outward appearance. Yet comfortable as a well-worn shoe or an armchair by the fire.

★ ★ ★

And its engine . . . a big, powerful brute, to be sure. But soft-spoken in any phase of performance. Smooth and silent even at its uppermost speeds.

★ ★ ★

Of course there are logical reasons . . . for the style . . . the luxury . . . the performance this *different* car provides. Bodies by Fisher, for instance. A 212-cubic inch engine with the famous G-M-R cylinder head.

★ ★ ★

An hour's ride will disclose *some* of its superiority. A year's ownership will reveal the rest. Discover this difference for yourself . . . and what a difference you'll find.

2-Door Sedan, \$1045; Landau Coupe, \$1045; Sport Roadster, \$1075; Phaeton, \$1075; 4-Door Sedan, \$1145; Cabriolet, \$1155 (wire wheels, bumpers and spare tire extra); Landau Sedan, \$1265.
