

Designers of the late 18th century made the elaborate sedan chairs of that period beautiful in line and artistic in color and embellishment

The New Packard Six Convertible Coupe

PACKARD body designers deserve the international reputation the beauty of their work has won for them. The graceful and distinctive simplicity of Packard bodies is everywhere admired and frequently copied.

And now Packard designers have created another worthy addition to the line of standard models—the Packard Six 2-passenger convertible coupe.

Here is the very car for combined sport and business use—and for the younger generation which so admires the runabout type.

With top up and windows closed the convertible coupe provides a snug, warm enclosed car for winter or wet-weather driving, with more than enough room for two.

With top down and windows lowered into the doors, the car becomes a smart roadster. The fully upholstered folding seat, which fits flush within the rear deck, also provides room for two.

This beautiful two-purpose car priced at but \$2425 at the factory is giving new impetus to the Packard Six conquest of the fine car market.

Standard Packard cars are priced from \$2275 to \$5250. Custom models from \$5170 to \$8800, at Detroit.
