

Magnificent New Bodies by Fisher

-that no other low-priced six provides

The Sport Cabriolet Body by Fisher

In addition to its numerous important new engineering features—

—in addition to its amazing new smoothness, its new snap and increased power—

—the New Series Pontiac Six offers magnificent new bodies by Fisher that typify Fisher supremacy in body design and construction.

The lines are low and rakish, emphasized by a higher, narrower radiator. Panels and beading are skillfully executed to express the existing mode. The front pillars are narrow. The doors are wide. And freedom from squeaks,

rattles and drumming is assured by Fisher's famous hardwood and steel construction. And as for comfort—just try the wide, deep, inviting seats—stretch your legs and relax!

When you view the New Series Pontiac Six from any angle you are impressed by its vivid smartness and style. When you step inside the car you instantly sense an atmosphere of restful roominess. And when you ride—you ride in genuine comfort—because the New Series Pontiac Six combines the superiorities of six-cylinder performance and the luxury of a Fisher body at the world's lowest price!

2-DOOR SEDAN
