

THE CABRIOLET-ROADSTER

FOR TWO OR FOUR PASSENGERS

NEW in its design . . . new in its beauty—old only in the fact it bears the time-honored name of Hupmobile.

For years Hupmobile has set the style trend for the industry. Here is the Cabriolet-Roadster that undeniably establishes the fashion for dual purpose cars of its type.

Far better to buy this Cabriolet-Roadster now and enjoy its many advantages than to wait several years for other cars to bring out similar models.

If you like wire wheels one day, disc wheels the next, you can change your car's appearance in a moment by applying the chromium-plated discs over the wire wheels. Discs cost but little extra.
