

*... of a Distinguished family*

**T**HE Packard Twin Six is a familiar name wherever men drive motor cars—a name that has taken its place in our very language. ¶ The Packard Twin Six of before the war made motor car history. The world-renowned war-time Liberty motor added to the fame of Packard Twin Six engines both abroad and at home—a fame since enhanced by the development of Twin Six marine engines for the world's fastest racing craft and the Packard Twin

Six "2500," the most powerful airplane engine built in America today. ¶ And now a superb Packard Twin Six motor car takes to the highway again—a car of beauty, a car of supreme luxury, a car of matchless power, a car that revives

the famous title of the first Twin Six—"Boss of the Road." ¶ Today's Twin Six Packard is the climax of sixteen years of continuous experience with twelve-cylinder engine designs—an experience of twice that period in the building of fine and distinguished cars. There is literally nothing by which to judge it, for it is so advanced, so modern that it defies comparison with multi-cylinder cars of conventional type. See and drive this great, new Super-Packard.
