

Then the Neighbors Decided—

Advanced Eight Convertible Sedan, \$1575 f. o. b. Factory

“Nash Next for us!”

It always happens . . . “one Nash leads to another Nash.” One neighbor talks to another neighbor . . . from friend to friend the word is passed . . . and every day, everywhere, more and more people set their hearts on owning a Nash.

This endless chain of enthusiasm keeps building year after year a steady, spreading, *permanent* growth in Nash popularity and prestige.

It certainly must mean something . . . all this cheering for the stability of Nash cars. All this testimony about Nash cars standing up and

keeping fit under the roughest punishment. All the talk about the *every-day-every-way* economy of a Nash.

And today—when price means so much—people heartily welcome the news that a Nash Big Six Sedan is priced only \$695 f. o. b. factory—only a few dollars more per monthly payment than the smallest and lightest cars!

You’ll find out for yourself—when you drive a new Nash home it won’t be long before you’ll be hearing more and more of the neighbors saying, “Nash next for us.”
