

*Knee Action*

**paves the way to  
fresh new scenes**

With Knee-Action wheels and "big-car" weight, you don't have to stay on the pavement to be comfortable. You can go where you please, regardless of roads. Bumps flatten out. Holes fade away. Knee-Action makes *all* roads feel smooth. And remember this about Chevrolet: Knee-Action is only half its thrill.

There's 80 horsepower for scaling mountains and sweeping through mud and sand "in high." A cushion-balanced motor keeps out vibration. New weather-proof cable-controlled brakes stop the car surely and safely. And who cares if gas stations are few and far between — this Chevrolet uses less gas and oil than any other full-size car you can buy!
