

*and now — the same progressive skill
has created — for 1934 — the most distinguished cars*
PIERCE ARROW
has yet presented

WHEN you visit the Automobile Show, you will want to view the 1934 Pierce-Arrows . . . Products of the same engineering genius which recently enabled Pierce-Arrow to establish 14 world records for performance—visually and mechanically, they carry forward the greatest advance in any period of Pierce-Arrow history . . . They confirm the leadership typ-

ified by the Silver Arrow at last year's Show. They indicate what can be achieved under independent ownership and intimate management. They mark an advance even greater than that which had already doubled Pierce-Arrow's share of fine-car sales in the past few years . . . The Pierce-Arrow Motor Car Company, Buffalo, U. S. A.
