

# IN ALL THE WORLD - NO CAR LIKE THIS

EVERYONE ADMIRES Airflow's modern beauty . . . its amazing roominess for six. Now Only \$1015.\*

*Only Airflow Owners Know  
motoring's Greatest Thrills!*

*Now at a  
NEW LOW  
PRICE*

BEFORE YOU BUY YOUR CAR this year, may we suggest you take an Airflow ride?

Instantly . . . you will see and feel the difference between the Past and the Future . . . between motoring that merely satisfies and travel that becomes a glorious adventure.

Instead of fighting its way through the air, the Airflow De Soto silently glides. You hear no annoying wind-

roar . . . you witness such streamline miracles as rain running *up-hill* on the windshield . . . rear panels *free* of dust deposits.

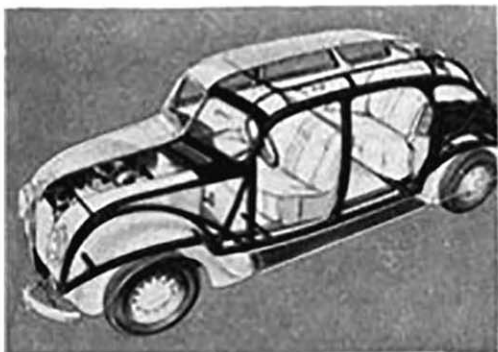

You soar over bumpy country roads so smoothly that back-seat passengers can read or stretch out on the divan-like seats and nap . . . that's the magic of Airflow's scientific Weight Distribution and long, flexible springs.

Worries are gone . . . thanks to genuine hydraulic brakes and the safest body ever built. All-day driving is play to Airflow's 25,000 owners.

See the new Airflow De Sotos, their "living room" interiors . . . then drive one with the Automatic Overdrive.

*At left:* From bumper to bumper, frame and body are one all-steel unit.

*Right:* You do "sixty" at 40 m. p. h. engine speed and fuel consumption.. with De Soto's Automatic Overdrive.

THE STEERING WHEEL is at an easy, racing car angle. There's 25% better vision through a wider windshield.

BEHIND THE REAR SEAT . . . there's a big, dust-tight luggage compartment for all your traveling needs.

*Airflow* **DE SOTO**
