

The new Graham Six has swept into spectacular popularity on the strength of superior value. Its zest and virility are sources of unending surprise and enjoyment to owners. Reports coming in about the economy of the new Graham Six are astonishing—far beyond the accepted standard for cars of such size and power. What counts even more with many buyers is the *individuality* of the car. You're not commonplace on the highway in a *Graham*.

World's biggest Eight for the money—the Graham Eight. Matched in quality only by the other new Grahams—the Six, Special Six, and the Supercharged Eight.
