

To get a really fine car for less than \$1000\*...

## ASK THESE 3 QUESTIONS

1. *What is the length of its wheelbase?*
2. *Has it fine-car engineering throughout?*
3. *How do sedan prices compare?*

IF YOU BUY a car in the price range of the Nash Ambassador—and expect to get a really fine car . . . judge its value by the simple, three-point comparison suggested above.

The Nash Ambassador is not a scaled-down model. These are the largest sedans in the Nash line for 1936! They have a 125-inch wheelbase! Compare that with other leading cars in this price class in the chart at the right.

The Nash Ambassador has the famous Nash "Twin-Ignition" engine and all of the long-life engineering features usually found only in cars costing hundreds of dollars more. It gives you big, double-acting hydraulic brakes,

and a rugged, all-steel body with steel top!

There has been no "skimping" in upholstery or in fittings. The new Ambassador is even more luxurious, even more beautiful than models formerly priced around \$2,000!

Yet the prices of these big, luxurious sedans start at \$835 and end at \$995! This is the year to buy your Nash Ambassador! Any Nash-LaFayette dealer will arrange for you to drive it. The Nash Motors Company, Kenosha, Wis.
