

# FORD'S OUT FRONT

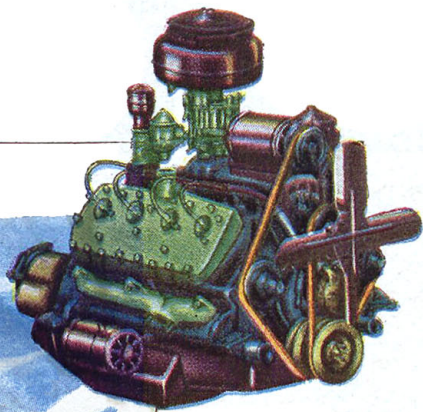

with the young-in-heart!

THERE'S A

**Ford**

IN YOUR FUTURE

**Ford is the only car in its class with 100 horsepower and the V-type, 8-cylinder engine!**

When people look at the new 1946 Ford Convertible, they say: "It's a honey!"

When they touch the top-raising button, they say: "It's a sedan in 30 seconds!"

When they drive the big new 100 horsepower V-8 engine, they say: "It's the liveliest thing on wheels!"

See your friendly Ford dealer and give him your order for a Ford Convertible . . . the car that's smart for the young-in-heart.
