

The Nash "600" Deluxe Business Coupe

Wide, soft seats add to the comfort of motor travel. And there's plenty of extra space behind the seat. This compartment is lined with washable plastic leather.

Worlds of room for luggage, sample cases, complete equipment for traveling. Salesmen in particular will appreciate the utility of this extra-large Business Coupe trunk.

● One of the most popular of all automobile body styles is the Business Coupe. For 1948, Nash makes available a new De Luxe model in the "600" series.

Featuring new beauty, unusual luggage room and a new low price, the Nash "600" Business Coupe fills a long-felt postwar need.

Salesmen and fleet owners particularly will appreciate this new model. With its amazing gasoline economy, easy parking and handling, the smooth ride of coil springs on all four wheels and the comfort of Weather Eye Conditioned Air, it is the perfect answer for the traveler whether his driving covers long-distance highway trips or constant operation in a city.

The Business Coupe is a big car. Look at its size in the picture above. And look, too, at the beauty of its long, graceful lines, its clean sweep from bumper to bumper.

Rear compartment is sturdily lined and covered with plastic leather. There's a full carpet behind the seat. Interior trim is smartly tailored in serviceable fabric, with harmonizing headliner and panels, and cream tenite fixtures. Washable plastic leather kickpads are at the bottom of both doors. Available in all standard solid body colors.

You'll like the beauty, performance and downright value of the new Nash "600" Business Coupe.
