

The new Nash Ambassador Airflyte. Three transmission choices, including Automatic Overdrive and Dual-Range Hydra-Matic Drive.

Why Buy Just Half A Fine Car?

Are you missing half the fun of a fine car—the *better* half? We think you are—unless you're driving a new Nash Ambassador!

For it isn't only the sheer beauty of Pinin Farina's continental styling that makes Nash so thrilling—nor even the excitement of its Super Jet-fire power.

Here—in a Nash Airflyte—you step into a whole new world of travel pleasure no other car can offer!

Imagine travel in reclining seats (the widest in any car) that banish

fatigue . . . that let you nap while others drive . . . that give you a "twin bed" cabin in the woods at night.

Imagine driving all day without a stop for gas . . . traveling free of dust, in air filtered by the Nash "Weather Eye." Imagine the ease of Nash Power Steering . . . and the Airflyte ride that experts rate "the finest of all."

See what new horizons open up—when you look through the widest windshield and rear window ever built into an automobile—enjoy the grandest eye-level vision.

You can even have the mighty Nash "Le Mans" Dual Jetfire Engine that set the greatest winning record of all American engines, in the 24-hour speed classic at Le Mans, France.

Yes, every inch of this continental-styled beauty just *teases* you to travel—to drive and *drive* as you never have before!

Step up your travel fun. Ask your Nash dealer for the keys and take a ride. You'll never again be content with just *half* the fun of fine-car ownership.

Take the Key and See—You'll Find None so New as

Nash Airflytes
