

### KEM 1-PIECE POINT SETS

Every mechanic who sees these Kem 1-Piece Point Sets, says the manufacturer, will recognize that in addition to making this usually difficult installation "a cinch," both the spring tension and contact alignment are factory controlled. Permits quality work on most late model cars, while reducing the installation time. Kem Manufacturing Company, Inc., Fairlawn, N.J.

### NO-LITE DOME LIGHT SWITCH

No-Lite dome light switch answers a common need—keeping the courtesy light off while you're working with the car door open. This battery saver is entirely mechanical—no wiring—and is easy for anyone to install. Comes in handy at the drive-in theaters and for night driving or parking. Price 49c. Deactivator, Inc., P. O. Box 232, 202 S. Towers St., Anderson, S.C.

### LOCKING ADJUSTABLE WRENCH

New self-locking adjustable wrench offers rapid adjustment, positive lock and is reported to be structurally sound. Drop-forged from selected alloy steel in 8, 10 and 12-inch sizes, ranging in capacity from 1 to 1 1/4". Just a flick of the thumb or finger unlocks or locks the adjustment instantly. J. H. Williams & Co., 400 Vulcan St., Buffalo 7, N.Y.

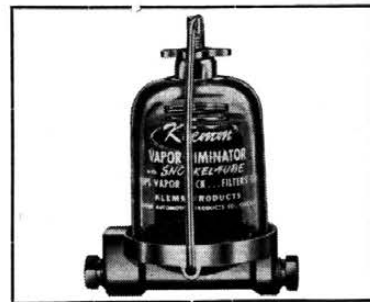

### EXTINGUISHER & CLEANER

A fire extinguisher that not only puts out the most difficult fires, but also will wash car engine, dry wet ignition wires, clean spark plugs, dry clean upholstery, degrease brakes and clutch. Has a powerful 30-foot jet stream, can be refilled with carbon tetrachloride from hardware store and pressurized at tire pump. \$6.95. FY-REX Mfg. Co., Box 329, Rockville Centre, L.I., N.Y.

### STAINLESS LUBRICANT

Kleen-Key is a new all-purpose lubricant with many automotive and household uses and is reported to lubricate without staining. In addition, it will not rot rubber, is never greasy and is not affected by temperature. The lubricant is clear, easy flowing, comes in a metal container with a removable spout. \$1.50 for 16 ounces. Kleen-Key, Inc., 717 N. High St., Columbus 8, O.

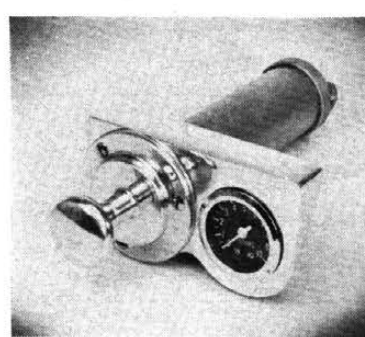

### VAPOR LOCK ELIMINATOR

Vapor-Liminator is installed in fuel line where it prevents vapor lock by acting as a condenser. Also filters gas for highest efficiency. Only two connections are required for two models: KVL-V8 (for Lincoln, Mercury, Ford) and KVL-U2 (for all others). \$2.95. Klemm Products, Division of Klemm Automotive Products Co., 1718 North Damen Avenue, Chicago 47, Ill.

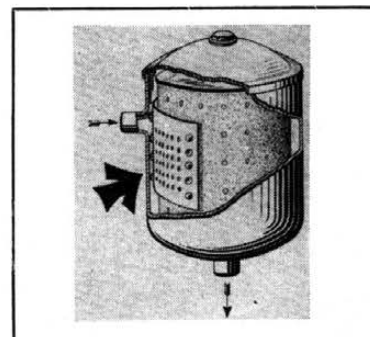

### NEW SAFTI TORQ CLUTCH

The new Safti Torq Clutch, for hot rods, dragsters and other competition cars. Manufacturer claims it will not slip, blow-up, or disintegrate at any speed. Dynamically balanced and fitted with high tensile selected steel springs. Available in 10-inch size only. \$37.80, tax included. For more information you can write to: Weber Tool Co., 4200 Whiteside Bl., Los Angeles, Calif.

### PRESSURE PANEL

Fuel-System panel consists of a cast and polished aluminum panel that fastens below stock dash board. Aluminum pressure pump is also polished, as is the Stewart-Warner fuel pressure gauge, which has window for lighting. The price of the complete panel, according to the manufacturer, is \$19.50. Available at Moon Automotive Equipment, Box 432, Santa Fe Springs, Calif.

### MAGNESIUM ACID-FILTER

Big Inch exposes a large surface area of magnesium to oil-entrained acids, is easily curved to insert into any oil filter of the removable element type. The magnesium is expendable and is intended to be eaten away by oil-borne acids, while filter prevents return to engine of salts and abrasives. Manning Magnesium, 727 National City Bank Bldg., Cleveland 14, O.
