The Oldsmobile "88"

Wide-set ovals house headlamps, parking-driving lights. Intake scoop cools front brakes.

Instruments rest in floating strut; functional air-and-speaker grille is forward and separate.

Dual exhaust stacks, flanking spare-tire-access door, serve as bumper guards. Wrap-around taillights accent fleetness.

Interior, in tones of blue, has four bucket seats. Rear arm rest contains storage space, window controls.

delta

Once again from Oldsmobile comes a daring new experimental design—the Oldsmobile "88" Delta, with sedan spaciousness in a hardtop only 53" high! Frankly an excursion beyond tomorrow, it may well be a prediction of things to come!

S P E C I F I C A T I O N S

53-inch over-all height

201-inch over-all length

74-inch maximum width

120-inch wheelbase

59-inch front tread

58.5-inch rear tread

57° windshield angle

6.2-inch ground clearance

23.5-inch dash-to-front-axle distance

7.60 x 15-inch tire size

55-inch shoulder room (front and rear)

35.1-inch head room (front and rear)

250-H.P. "Rocket" Engine

350-pound-feet torque

10.0-to-1 compression ratio

Hydra-Matic Super Drive transmission

Brake drum is integral part of wheel. Dual fuel tanks are housed in each rear fender.
