59 FORDS  
are built for savings

Some cars, today, are so radically styled that they sacrifice a great deal in real comfort. Not *Ford!* The beautifully proportioned 59 Ford is built *for people* to ride in...to drive...to enjoy. Door openings, for example, are much wider...doors open wider too! *Everybody* (including the man in the middle) has a seat that's thickly padded, with full springing for deep-down comfort! There's more than just wiggle-room, too, in the big new Ford. There's *extra* space for legs, elbows, hips—and *hats!*

The beautiful proportions in the 59 Ford are matched by beautiful savings. Start with the price. The 59 Ford is priced *lower* in all comparable models than its major competitors! Furthermore, you save up to five cents a gallon or one dollar a tankful on gas with Ford's standard Thunderbird V-8 or Six—which use *regular gas!* Full-flow oil filtration means oil savings. You change oil only every 4000 miles. And it's standard on all Fords at no extra cost. And waxing your car just isn't necessary, *ever*, with Ford's beautiful amazing new Diamond Lustre Finish!
