

Above left, the world's most exciting new car—the Galaxie! The car with the Thunderbird's very own silhouette, luxury, glamour and heavenly handling ability.

Out of the blue —
new galaxie of fashion

where a wedding of line and luxury

sets a new silhouette in motion

The most becoming car to drive—
sleekly beautiful...luxurious as your favorite mink!

It's the new GALAXIE by FORD, wedding
the elegance of the Thunderbird and the
beautiful proportions of the 59 FORDS.

The most becoming shape to wear—the shape with movement in every line. Proving the point—this flare top, flare skirt silhouette in French cotton, designed by Carven for David Crystal.
