

Standing, going, braking...its great breeding shows!

What decides you on the car *you* buy? Styling? Performance? Safety? On all *three* counts, no car promises more for the price* than Austin's newest... the finely-bred A99!

Standing, it's stunning! The A99's Continental lines could *only* have been created by the world's foremost auto designer. And only Austin interiors surround you with such low-in-price luxury—even real leather upholstery and deep-pile carpeting!

Going, it's breathtaking! Austin powers this A99 with a *true* sports car engine—the twin-carburetor Austin-Healey job that's famous for flashing acceleration. Transmissions? Take your choice—standard three-speed shift

with overdrive, or smoothly quiet automatic!

Braking, it's brilliant! Here's the safest brake system on wheels. Disc brakes end brake fade, even at highway speeds (with no adjustment ever needed). And power assist gives you toe-touch control—another *standard* feature with Austin!

See this Austin A99. Drive it. You won't be content till you *own* this newest sensation from the world's most experienced makers of sensibly-sized cars!

*\$2,755, fully equipped—including 12-month written factory warranty, honoured at over 250 Austin dealers across Canada. Price is suggested retail, east coast port of entry, including heater, defroster, overdrive, windshield washers, power-assisted disc brakes, turn signals. Prices vary slightly across Canada.
