

Today's look of success is a look of action—in men and in motor cars. The 1963 **Buick Electra 225** is built for men who put performance above position—who want the finest in engineering, in coachcraft, in comfort, in handling—at a sensible price. Electra 225 is one of the three or four finest cars in America, with a clean distinction all its own. And it's a Buick, through and through. See and drive it at your Buick dealer's.
