

LAURENTIAN 4-DOOR, 6-PASSENGER SAFARI (Roof Luggage Carrier optional at extra cost)

A GENERAL MOTORS VALUE

More style, space and savings are par for the course in Pontiac's Safaris!

If you do a lot of driving, one of Pontiac's wide range of Station Wagons is sure to suit you to a tee! Not simply because any Safari happens to be the best-looking station wagon to ever tote a load, either. But because they're so exceptionally practical as well. Six have never gone golfing in such honest-to-goodness comfort. And their bags, buggies and other gear all fit with uncluttered ease in the Safari's giant cargo area. (97.5 cu. ft. on full-sized 6-passenger models, a shade less on the 9-passenger ones.) We could easily go on adding more solid reasons why the Safari station wagons are your best buy... but why not let your Pontiac dealer show you the complete Pontiac line-up? You'll swing a good deal... even if your game isn't golf!
