

*ECONOMY MIGHT BE  
THE LAST THING YOU BUY PONTIAC FLEET CARS FOR . . .*

*. . . BUT IT'S THE FIRST THING YOU GET*

Buy a spacious, gracious Pontiac for its room and prestige-building qualities if you want to, but don't be too surprised if it turns out to be the thriftiest long-term investment you ever made. We planned it that way. First of all, the initial price of a Pontiac Catalina is a lot lower than you might imagine. Right down with some models of the low-priced three, in fact. You save. Then there's Pontiac's proven durability and heavier construction throughout. These, plus such features as self-adjusting brakes and new Delcotron generator, mean

less downtime, lower maintenance costs through the years. You save. And here's the kicker. Because of Pontiac's ever-lovin' styling and ever-lastin' durability, it's usually worth a sizeable amount more at resale time. You save again. For complete information about Pontiac '63—the car that says so many good things about your company—either see your nearby authorized Pontiac dealer or write to Fleet Sales Department, Pontiac Motor Division, Pontiac 11, Michigan.
