

**only alfa romeo could create
this high performance car with
5-forward speeds for \$2995**

FIVE PASSENGER GIULIA TI
\$2995 (P.O.E.)

It took every bit of Alfa Romeo's 60 years of legendary racing experience to produce this high performance, budget-priced car.

The five forward speeds (usually found only in cars over \$10,000) are standard equipment. This enables full utilization of the engine's torque range, providing full-power potential under all circumstances. And provides "down town" traffic flexibility, over-drive economy, and superior hill climbing performance.

Not having five forward speeds, many cars try to compensate with heavy, remote controlled, "bolt-on", overdrive units—optimistically described as the 5th forward speed—and charge for it as an "extra."

Examine the all-aluminum engine, gear box and

rear axle housings. Now add double over-head cam shafts and the result is a car capable of over 105 miles per hour; 31 miles to the gallon.

Check the standard-equipment-list. It contains most items other makes charge for as "extras"... including individually adjustable front seats, and disc brakes.

Prefer a sports car? The famous Giulia Spider, with custom Farina body, \$3395 P.O.E., (\$3450 P.O.E. West Coast). The six cylinder, 2 + 2, 2600 Spider with 3 dual-throated Solex carburetors and custom body by Touring, \$4995 (P.O.E.) Coupe models available. Also detachable hardtops for all Spiders.

Traveling abroad? Save money. Order here. Pick up overseas. Ask your dealer for details.
