

FORD GALAXIE 500/XL—2-DOOR HARDTOP

Nobody goes down to the old Keefer place anymore, unless they're in a Solid, Silent Super Torque **FORD**. Only Ford takes that old wash-board road like a fresh-paved turnpike. Reason: The '64 Ford has over 130 pounds more steel in its frame and suspension than any other car in its class. (Is it true that old man Keefer hid money in his barn?)
