

YOUR GUIDE

TO CHEVROLET'S LONG STRONG LINE OF SCHOOL BUS MODELS FOR '65

For the next few minutes, we'd like to take you on a brief tour of our latest offerings in school transportation. The following eight pages present more than a dozen models, including Step-Van and Carryall conversions for highly specialized needs, as well as conventional chassis for bodies from 30 to 66 pupils in capacity. Along the way, we'd like to point out many of the features that make these models the best buys on the market—

features such as variable-rate suspensions and High Torque engines and ladder-type frames and many more—features that contribute to Chevrolet's reputation for economy and reliability. At each point of interest, you'll see how Chevrolet quality helps stretch your school bus dollar. By the time your tour is over, you'll know that our buses are worthy of your closest consideration. . . . Chevrolet Division of General Motors, Detroit, Michigan.

The Value Buy in School Transportation
