

MOTORMART

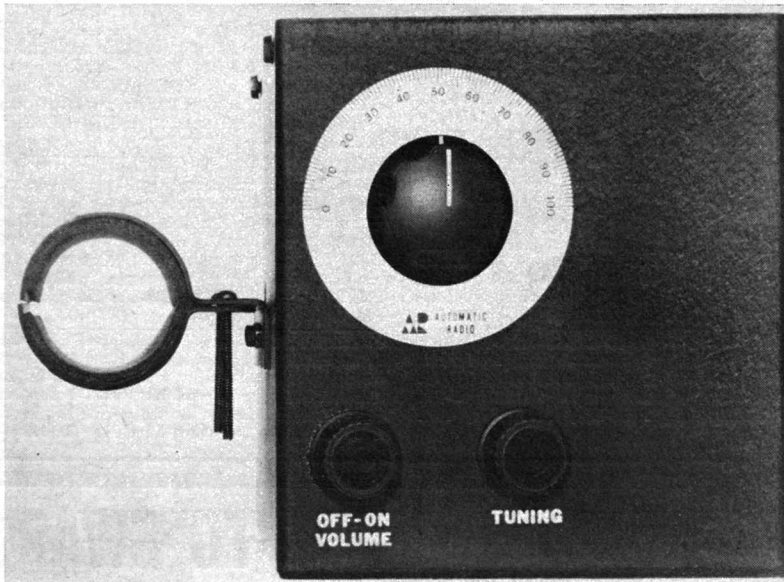

STEERING STYLING

Stylish steering wheels of chromium plated steel, with natural hardwood rims, are offered by Ansen Automotive Engineering Inc., Dept. CL-2, 13715 S. Western Ave., Gardena, Calif. The wheels are manufactured in three patterns, flat, dish and deep dish. Outside diameter of all three is 15.5 in. Hardwood is laminated and pegged for the continental sports-racing appearance.

GRANT SLANT

From Grant and Grant, Dept. CL-2, 241 N. Westmoreland Ave., Los Angeles 4, Calif., comes a new slant in ignition, the Flamethrower. Priced at \$99.50, with a mechanical tachometer shaft \$12 extra, the system is designed to provide high performance ignition for all overhead valve V-8 engines—at speeds of 10,000 rpm with scattered fire and point float eliminated.

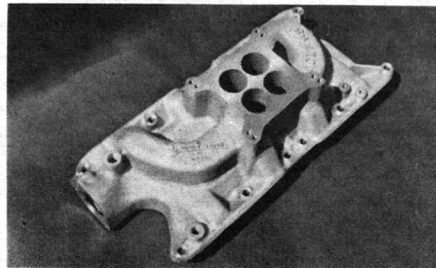

ANTIQUE AUDIO

They *do* make 'em like they used to. An authentic replica of one of the earliest auto radios is available for the antique owner. Picturesque Products, Dept. CL-2, 22444 Cobb Ave., Dearborn, Mich., 48128, sells the unit for \$79.95 and a matching antenna, for under-running-board-mounting, for \$8.95. The radio features modern transistorized circuitry and a self-contained speaker.

PRINCE OF PICKUPS

For those who've always wanted a Chrysler Imperial pickup, AMT Corp., Dept. CL-2, P.O. Box 400, Troy, Mich., offers a model kit, available at \$2 in hobby shops. The miniature Imperial features vinyl woodgrain panels, skid rails, custom hood scoop, reworked taillights and rear bumper, detailed console and instrument panel, and finished aluminum valve covers for the "hemi" engine.

COLT 65

Weiland Power and Racing Equipment, Dept. CL-2, 2737 San Fernando Rd., Los Angeles, Calif., 90065, now produces a new single quad manifold for Ford, Mercury and Mustang 260- and 289-cu. in. engines. Dubbed the "Colt 65," the smoothly ported, exhaust-heated manifold is designed expressly for Carter AFB or Holley high-performance units, but will accommodate most large 4-barrel carburetors.

GRILLED MUSTANG

A quick custom touch for Mustangs is provided by Malcraft Engineering, Dept. CL-2, P.O. Box 65693, Los Angeles, Calif. Malcraft manufactures a polished and buffed grille to sell for \$49.95. Installation requires 20 min. with no holes to drill, no special tools. In addition to splendor for the street, the rectangular patterned grille provides free breathing for competition.
