The only chance you'll get to pass Richard Petty's Hemi!

Small wonder, what with its high-performance 426-cubic-inch hemispherical-head V-8. Plymouth Belvedere . . . a beautiful piece of hairy machinery! Everything about the Hemi package is designed to move you out, fast. Like four-barrel carbs. Dual-breaker distributor. High-lift, high-overlap cam. Special plugs, pistons and double valve springs. Low-back-pressure, dual-exhaust system. Special Blue Streak tires. Wide-base, Safety-Rim wheels. Oversize front torsion bars. Sway bar.

Added-leaf, high-rate rear springs. And heavy-duty shocks. For performance stops, optional front-wheel disc brakes. Now that we've told you what goes into making a Hemi-powered Plymouth such a great winner, we'll tell you what it takes to beat one. Another Hemi-powered Plymouth.
