# Ride with the winner... Plymouth

**DAYTONA "500"** Richard Petty pushes his Hemi-powered Plymouth Belvedere to victory at Daytona, Fla., on Feb. 27, 1966.

**ROCKINGHAM "500"** Paul Goldsmith rocks home to win in his Hemi-powered Belvedere at Rockingham, N.C., on Mar. 13, 1966.

**ATLANTA "500"** Jim Hurtubise roars into victory lane to take first place with his Plymouth Belvedere at Atlanta, Ga., Mar. 27, 1966.

**DARLINGTON "400"** Petty again passes the pack to prove Hemi-power in his Plymouth Belvedere at Darlington, S.C., on Apr. 30, 1966.

**YANKEE "300"** Norm Nelson drives his Plymouth Belvedere across the line to win this USAC classic at Indianapolis, May 1, 1966.

**CHARLOTTE "600"** In this toughest and longest NASCAR stock car race, Marvin Panch (with relief driver Richard Petty) takes his Belvedere into first place at Charlotte, N.C., May 22, 1966.

Finishing first in nearly every major stock car race this year, Plymouth proves its durability and reliability! On different tracks and with different drivers, Hemi-powered Plymouth Belvederes show they have what it takes to make winners . . . in races as long as 600 grueling miles.

You couldn't buy one of these cars (specially modified for stock car racing) even if you wanted to. But you can buy a Plymouth designed and built with the engineering excellence that helped make such a record of performance, durability and reliability. Fury, Belvedere, Valiant and Barracuda.

See your Plymouth Dealer today . . . and take a winner for a test drive!

**Here's proof  
of SUREST  
protection!**

After 22,000 miles on this 1964 Triumph engine, you can see the results of using D-A SPEED-SPORT OIL. No wear on engine or transmission . . . no sludge or varnish . . . no engine failure.

That's the report on this cycle—lubricated with D-A Speed-Sport Oil since new—when it was torn down by Ed Kretz & Son, Monterey Park, California, for racing modifications.

Ask anyone who knows about speed and performance. You'll find out that D-A Speed-Sport offers maximum protection where it counts . . . film strength, anti-foaming, sludge and varnish restriction and elimination of wear and scuffing even at high temperatures.

It makes no difference where or how you ride your cycle, you can feel, see and hear the difference when you use Speed-Sport. Ask for D-A . . . it's surest protection!
