**The new BMW 2000 CS.  
A true four-seat sports car.**

Hardly anyone will get to drive the BMW sports coupe this year.

There'll only be a limited number in the country.

It takes time to build a civilized sports car. This one handles like a Grand Prix champion—with automatic transmission at no extra cost. And feels like a long, silky limousine.

A difficult combination to bring off.

Why not come down soon to your local BMW showroom and see how handsomely we've managed.

First come, first served.
