

**“Such smoothness, such silence...
C'est formidable!” said Paris
art collector, Jean Bauchet
at the wheel of the '66 FORD XL**

M. Jean Bauchet, owner of a limited edition Facel Vega, was fascinated by the luxury, beautiful design and deep-built quality of the FORD XL. As a recognized connoisseur of fine cars, Ford's Quiet Man invited him to take a test drive.

As M. Bauchet drove through the crowded streets of Paris, he commented on the quick, sure

response of Ford's power steering and power brakes: “This Ford is friendly. It does what you tell it to do, very easily, lightly, obediently.”

Why don't *you* test the quietness of Ford's solid body quality? Make your own quiet test at your nearby Ford Dealer.
