

RED HOT

MUSTANG

with a PAXTON supercharger!

390 HORSEPOWER for a showroom **MUSTANG** with no modifications other than a **PAXTON SUPERCHARGER**. We're serious when we say that a **PAXTON SUPERCHARGED MUSTANG** develops so much power that it will out-perform practically all current factory high-performance cars. **HOT ROD MAGAZINE** recently road tested a **PAXTON SUPERCHARGED MUSTANG** and sliced 3.35 seconds off the 0-60 time.
