# SNEAK PREVIEW!

## FABULOUS FUNNY CARS FOR SUPER '67 SEASON

The new Sports Barracuda. Hardtop and Convertible models also available.

What happens when a ton and a half of Barracuda swallows a 383 cu. in. V-8?

Hoo-hah! Lights flash; heads turn; mouths gape; and when the smoke settles on the strip the guy at the helm is likely to walk off with the lion's share of the hardware.

The 383, you see, is Barracuda's new engine option. With a bore of 4.25 in. and a stroke of 3.38 in., it cranks out 280 hp and 400—yes, 400—lbs.-ft. of torque. Intake is through an AFB 4-barrel and massive side-by-side ports, while exhaust exits through cast headers and low-restriction megaphones.

Sort of makes you want to turn trophy hunter yourself, doesn't it? In that case, you'll be glad to know the rear seat folds into a roomy 7-ft. utility compartment. When the smoke settles, maybe you'll need it for storage. Plymouth is out to win you over this year.

**383 Cubes. And a trophy room in back.**

## CAPACITIVE DISCHARGE Ignition

Converts your car to Capacitive Discharge Ignition. This revolutionary new ignition system discharges a high voltage spark in less than 4 millionths of a second. Produces over 80,000 volts... 50,000 at 10,000 R.P.M. Capacitive Discharge feature fires fouled plugs. Spark plugs last 50,000 to 100,000 miles. Eliminates hard starting... Improves engine performance. Converts back to conventional ignition in seconds. This system will pay for itself in a short time and can be transferred from one engine to another.

## PHOTO-CELL BREAKERLESS CAPACITIVE DISCHARGE IGNITION SYSTEM

Full ignition on a "Beam-of-Light." Combining the amazing Mallory Photo-Cell Breakerless Distributor with the Mallory Capacitive Discharge Ignition results in the world's finest battery ignition system. This new concept in ignition has no points to wear out. There are no moving parts except a shutter wheel which serves to interrupt the light source from the Photo-Cell, thereby triggering the signal to fire the spark. Capacitive Discharge feature fires fouled plugs. Spark plugs last 50,000 to 100,000 miles. It is a complete ignition system including a pie-wound coil, an electronic amplifier and a complete Photo-Cell Distributor. "Beam-of-Light" will time the engine more accurately than ever before possible. Produces twice as much voltage and spark energy than the engine requires, regardless of engine R.P.M.

For over 40 years automotive enthusiasts have relied on Mallory products for quality and dependability and PERFORMANCE. You too, can rely on Mallory. See your dealer, or write today for complete information and free colorful decal.

### COVER

Match racing "funny" cars are electrifying drag racing fans from coast to coast with their spectacular performances and classy showmanship. Typical of the wild, wild machines that will be running during the 1967 season is "Brutus," a supercharged, fuel-burning, fiberglass Pontiac GTO.

### CAR CRAFT ACTION SHOWCASE

Pat Brollier captured the spectacular drama of the Hurst "Hairy Olds" at the NHRA World Championship Finals.
