

A Ford by any other name would cost a lot more!

Believe me! My last car had a luxury name, and unfortunately, a luxury price. This year I was wiser. I got a Ford Galaxie 500. Stronger and quieter than ever. And I didn't have to sacrifice one ounce of luxury: my new Ford gives me a big 428 cu. in. V-8, SelectShift that works as an automatic and as a manual, plus every other elegant option in the book. All for a lot less than I ever spent! Interested? Ford Galaxie 500—that's the name to remember!

Ford Galaxie 500 2-Door Hardtop

Quieter because it's stronger...stronger because it's better built. **FORD**
