

Chevelle SS 396 Sport Coupe. There's a convertible, too.

Its vigor remains undiluted by its comforts. (Another reason Chevelle's the most popular car in its field.)

Turbo-Jet 396 V8 (325 hp!) is standard on SS 396, not something you pay more for. An extra "charge" at no extra charge.

Special suspension and red-stripe wide-oval tires put more footprint on the road and hold it there firmly. SS 396 standard items.

4-speed shift is just what you ordered: big and hefty to handle all that torque; smooth shifting with a short, sure throw.

Bucket seats you specify, and you should. They're thickly cushioned, vinyl upholstered, comfortable as you can get and sporty looking, besides.

Four-Season Air Conditioning cools or warms as called for, dehumidifies and circulates air as you please. Weather's always good, when you order your own.

Stereo: available as FM multiplex radio (with AM, too) and/or 8-track tape player. Four speakers surround you with sound—pop, Bach or rock.

Quick-sized nimbleness, big-car ride, roominess, good looks: no wonder Chevelle sells so well. See your Chevrolet dealer and try a Chevelle for size.
