

# Toronado. The car with pull for men with push.

Toronado is a take-charge kind of car for a take-charge kind of guy. The pulling traction of FRONT-WHEEL DRIVE grabs the road ahead, then stays in command. Bigger-than-ever Rocket V-8

speaks softly—but with a most authoritative voice. And that no-frill Toronado look tolerates no compromise with the ordinary. It's all man—right down to that man-sized trunk. Toronado. A no-bones-about-it, get-ahead car. For the man who feels the same way.

The front-wheel-drive  
youngmobile from Oldsmobile.

MARK OF EXCELLENCE
