ABOVE: The annual AHRA Winternats or the Winternational Wonderland, as its called on page 42 of this issue, saw the new breed of funny cars at their best. Like Gene Snow's 'Rambunctious', these cars are really fuel dragsters in disguise. **COVER:** CARS likes to keep up with the times, so this year we'll be running this new open chamber aluminum head L/88 Chevy engine in our A/Modified Production Camaro. We also plan to put an experimental ZL-X cast-iron motor in the same car.
