A woman with dark hair, wearing a white long-sleeved dress with a black belt, stands with her hand on her hip next to a red Dodge Charger R/T. The car is parked on a field of dark, tilled earth. The car's front grille and hood are visible, with a "Charger R/T" badge on the grille and a "CHARGER" badge on the front bumper. The background shows a flat landscape under a clear sky.

DODGE SCAT PACK

It really makes no difference what you're looking for. Dodge has 'em all. All powered by high-output V8's that learned what it's all about from the famous Dodge 426 Hemi V8. All with special suspension for sure-footed tracking. And all with prices that shut down competition. Take the all-new Swinger 340 for instance. This baby comes right-off-the-showroom-floor with no options to buy, no special engine

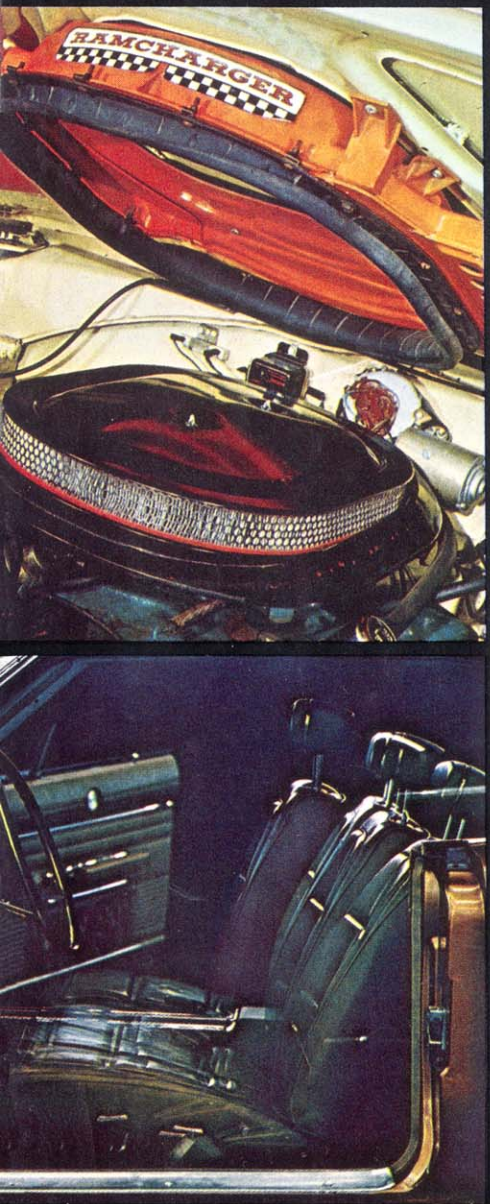

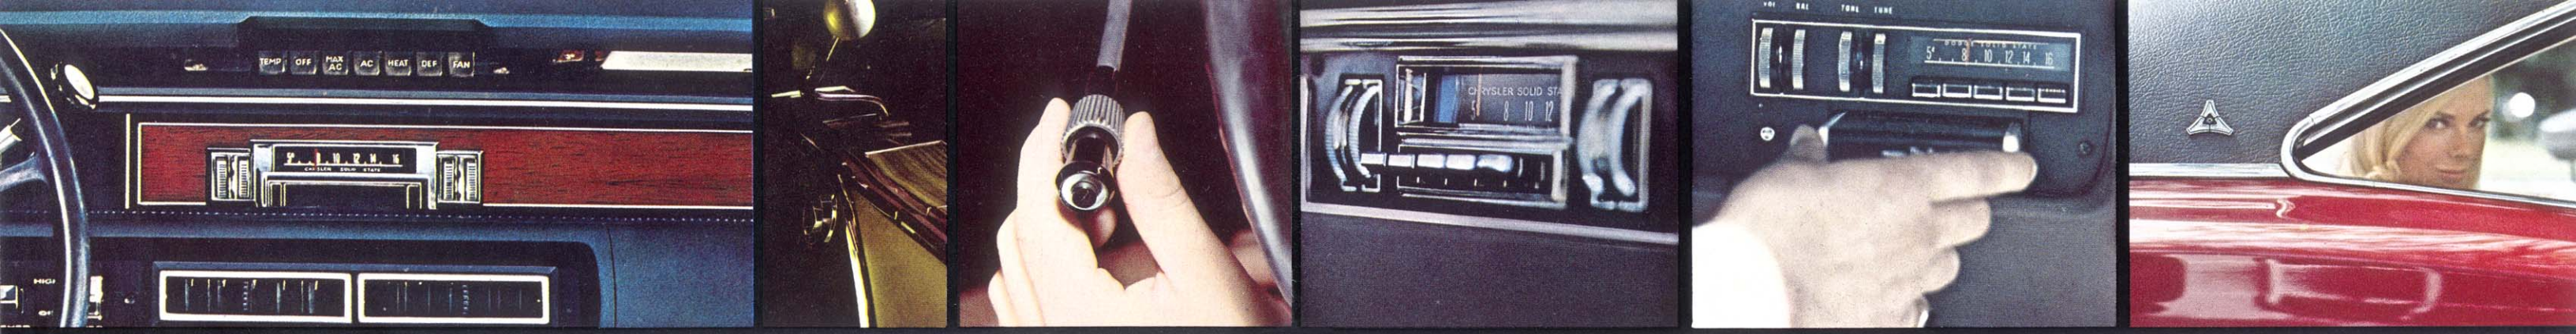

required. A 340 V8 and a 4-speed manual with Hurst shifter are standard on this, the lowest priced performance 2-door hardtop in the industry. Perhaps you're looking for something bigger, stronger. If so, Coronet Super Bee could be your answer. Its 383 V8, wide oval tires, and 4-speed manual with Hurst shifter provide more standard performance for the money than any of its competition. Still, if you're looking for even more, try on one of the three R/T offerings or the Charger 500. They're the best around. And beginning with a standard 440 Magnum V8, each comes equipped to trap trophies at the turn of the key. Face it. If performance is your bag, set yourself up with one of the excitement cars of the Dodge Scat Pack and live it up.
