

# Mercury Cyclone CJ

## What do you want on your red hot?

Cyclone CJ—the high-performance fastback with the bold build and sports car spirit. In the go department a real grabber (335 horses). You can have it straight (CJ 428) or with optional CJ 428 Ram, the breather. (The hood scoop works.) Cyclone CJ comes with four-speed stick, competition handling package, wide-tread fiberglass-belted WSW tires, blackout grille, hood stripe, all-vinyl cockpit, low-restriction dual pipes—all standard. Performance options aplenty: tach, styled steel wheels, power front disc brakes, power steering, Traction-Lok differential (3.50, 3.91 or 4.30 axle ratios), bucket seats, racing mirror—you name it. Say Cyclone CJ. You might as well lead the way.
